Washington, D. C.

Subject: [redacted] Attention: Technical Representative

Dear Sir:

As per your request we are pleased to quote [redacted] to replace the optical system presently called for with a binocular optical system. The range of magnification of the binocular microscope shall be continuously variable between approximately 17.5 x to 35 x when using 5 x eyepieces and 35 x to 70 x when using 10 x wide field eyepieces. The magnification from the film plane to the reticle is 1 x providing a field of view at the reticle and the film plane when using either the 5 x or 10 x wide field eyepieces of about 2.6 mm to 5.2 mm.

The film spool adaptars to allow the mounting of four other film sizes on spools no greater than 6" diameter and 9 1/2" long will cost [redacted]

The above work can be accomplished without a delay in delivery of the comparator if we receive an amended contract no later than 60 days from the date of this letter.

Very truly yours,

CWZ/eac

Concur with replacement
